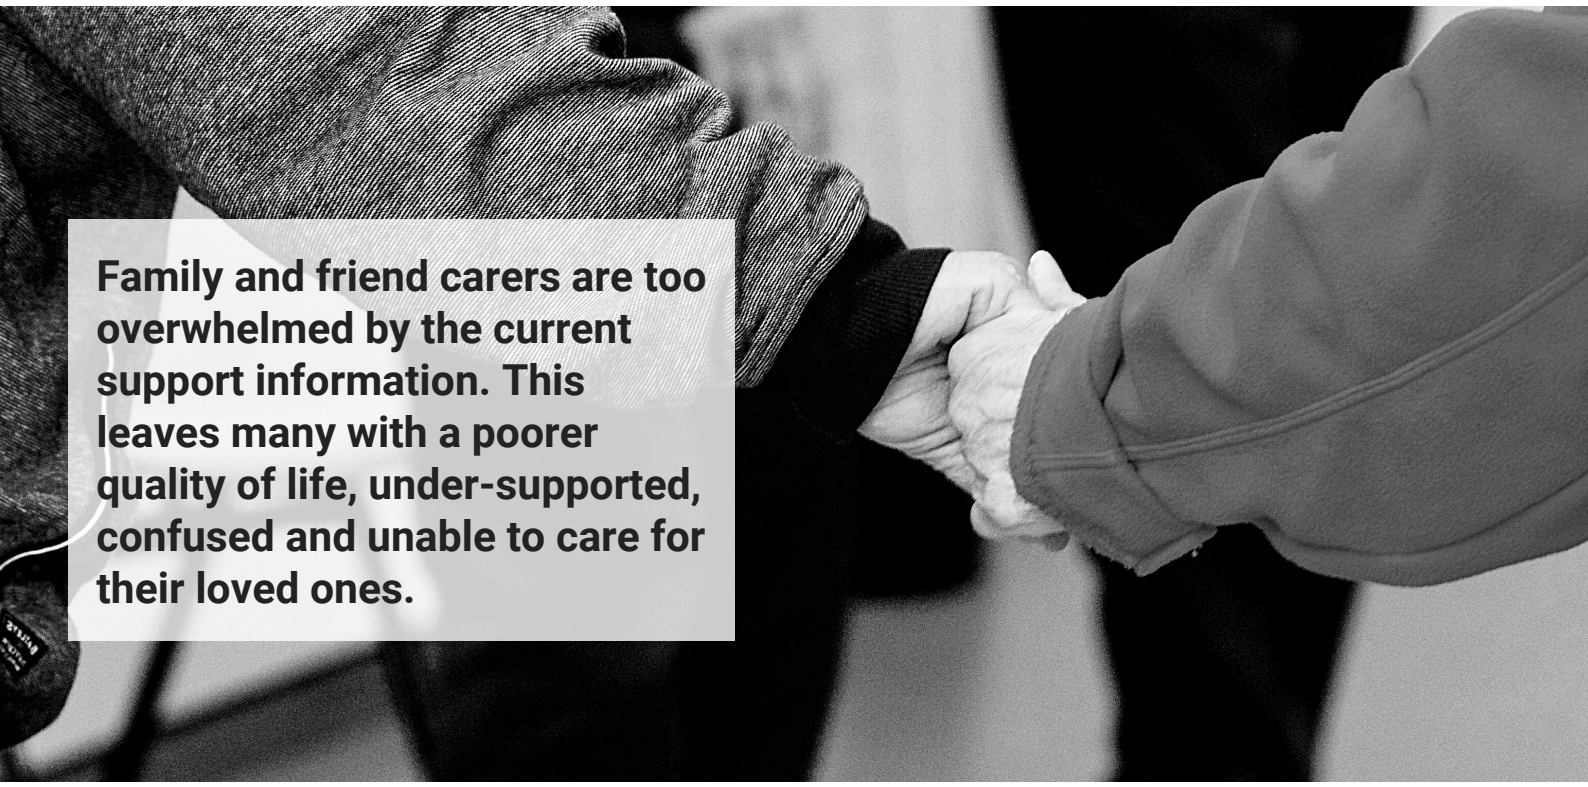
My Dementia Companion

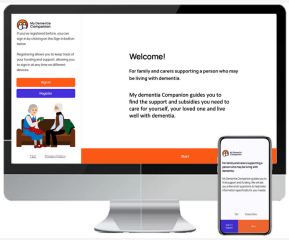


Family and friend carers are too overwhelmed by the current support information. This leaves many with a poorer quality of life, under-supported, confused and unable to care for their loved ones.

We are the world's first smart dementia assistant that intuitively serves up personalised, bite-sized and practical support information and tips from professionals and others carers, throughout this complex journey.

BENEFITS

- Better outcomes for your clients and family
- Saves you time and enhances your interactions
- Aligns to Aged Care Quality Standards and Royal Commission Findings



TEAM

We are a passion project created by volunteers with combined decades of experience as carers, clinicians, innovators, policy makers and entrepreneurs.

WE ARE RECOGNISED IN MANY FORUMS

- Winner of Dementia Australia's Decoding Dementia Innovation Challenge
- Presented at International Dementia Conference and ITAC
- As seen on My Aged Care, the federal Department of Health, Melbourne PHN and many more.

PLEASE HELP YOUR CLIENTS AND CARERS:

- Refer them to My Dementia Companion for FREE
- Incorporate into your care plan or onboarding
- List as a resource on your site for clients and families.
